A

- Abnormalities, electrocardiographic, evaluation of new single, oblique chest lead for rapid screening of, in large populations (Lindeman, et al.), 24
periodic, of temperospatial QRS vector in isolated right ventricular overwork (Toole, et al.), 77
- Abstracts, cardiovascular, 287 (B. Rev.)
- Adams-Stokes syndrome and slow heart rate, artificial pacemaker for treatment of (Elmqvist, et al.), 731
- Advances in cardiology, 848 (B. Rev.)
- "Aimed" electrocardiography. Model studies, using heart consisting of 6 electrically isolated areas (Fischmann and Barber), 628
- Aldosterone, effect of, on electrolytes and on digital vascular reactivity to l-norepinephrine in normotensive, hypertensive, and hypotensive subjects (Mendlowitz, et al.), 93
- Alpha methyl-dopa, clinical evaluation of (Sperber and DeGraff), 275
- Amyloidosis, primary, generalized (Gonzalez-Angulo, et al.), 110
- Analgesics, narcotic, in heart disease (Modell), 709
- Anastomoses, interarteriolar, coronary (Laurie and Woods), 579
- Aneurysm of ascending aorta obstructing right ventricular outflow and producing severe "pulmonary stenosis" (Schrire, et al.), 396
syndrome of compression of pulmonary artery by (Kulkarni, et al.), 678
- Aneurysms, sinus, aortic, ruptured. Clinical and surgical aspects of seven cases (Magidson and Kay), 597
- Angina pectoris, isocarboxazid (Marplan) in treatment of (Grant), 137 (Annot.)
severe, comparison of continuous long-term heparin and oral anticoagulant therapy in patients with (Hughes, et al.), 615
- Angiocardiographic findings; origin of both great vessels from right ventricle with pulmonary stenosis (Coelho, et al.), 766
- Angiocardiography, quantitation of valvular insufficiency in man by (Sandler, et al.), 501
- Angiography, coronary, myocardial bridges in (Bloor and Lowman), 195
- Angiosarcoma of heart (McNalley, et al.), 244
- Angiotensin and disodium calcium versenate combined, given to reverse quinidine toxicity (Luchi, et al.), 345
- Annotations, 135, 277, 425, 570, 712, 842
- Announcements, 144, 290, 578, 722
- Antazoline, new antiarrhythmic agent, clinical and physiologic effects of (Dreifus, et al.), 607
- Antiarrhythmic agent, new, antazoline, clinical and physiologic effects of (Dreifus, et al.), 607
- Anticoagulant, oral, therapy, comparison of continuous long-term heparin and, in patients with severe angina pectoris (Hughes, et al.), 615
therapy, 288 (B. Rev.)
in acute myocardial infarction (Jacobs), 716 (Annot.)
- Aorta, ascending, aneurysm of, obstructing right ventricular outflow and producing severe "pulmonary stenosis" (Schrire, et al.), 396
syndrome of compression of pulmonary artery by aneurysm of (Kulkarni, et al.), 678
correlative study between radiologic and pathologic diagnoses of atherosclerosis of (Moran, et al.), 190
- Aortic pressure and flow, effects of respiration on (Shabetai, et al.), 525
sinus aneurysms, ruptured. Clinical and surgical aspects of seven cases (Magidson and Kay), 597
stenosis, acquired, hemodynamic significance of radiologic changes in (Rockoff and Austen), 458
- Aorticopulmonary septal defect, diagnosis of (Parker, et al.), 534
- Apexcardiogram in normal older subjects and in patients with arteriosclerotic heart disease. Effect of exercise on "a" wave (Benchimol and Dimond), 789
- L-Arginine monohydrochloride, oral, meralluride, treatment of refractory retention of fluid with (Mizgala, et al.), 5
- Arrhythmias, atrial, left (Somlyo and Grayzel), 68
- Arterial hypertension and ischemic heart disease. Preventive aspects, 143 (B. Rev.)
- Arteriosclerosis, hypertension and. Epidemiology of cardiovascular diseases. Methodology, 287 (B. Rev.)
- Arteriosclerotic heart disease, apexcardiogram in normal older subjects and in patients with. Effect of exercise on "a" wave (Benchimol and Dimond), 789
- Arteriosus, patent ductus, coronary arteriovenous fistula with (Shaffer, et al.), 758
truncus, common, with regurgitant truncus valve; truncus insufficiency (Deely, et al.), 542
- Arteriovenous fistula, coronary, with patent ductus arteriosus (Shaffer, et al.), 758
of kidney (Mangiardi, et al.), 549
- Artery, coronary, main, function of normal and hypertrophied hearts during perfusion of, with unsaturated blood or colloidal isotonic solutions at systemic pressures (Petrooulos), 514
pulmonary, syndrome of compression of, by aneurysm of ascending aorta (Kulkarni, et al.), 678
- Ascending aorta, aneurysm of, obstructing right ventricular outflow and producing severe "pulmonary stenosis" (Schrire, et al.), 396
syndrome of compression of pulmonary artery by aneurysm of (Kulkarni, et al.), 678
- Atherosclerosis and diabetes, fats and carbohydrates as factors in, in Yemenite Jews (Cohen), 291
of aorta, correlative study between radiologic and pathologic diagnoses of (Moran, et al.), 190
proposal on possibility of improving cow's milk for purpose of lowering incidence of, 141
- Atrial arrhythmias, left (Somlyo and Grayzel), 68
fibrillation, ventricular parasystole in (Berman and Simonson), 285 (Annot.)

Atrial—Cont'd

- septal defect, Valsalva's maneuver in (Hancock, et al.), 50
- Atropine, wandering pacemaker occurring during speech, as result of paradoxical effect of, on A-V node (Deliyiannis), 683
- Autoregulation in encapsulated, passive, soft-walled vessels (Rodbard), 648
- A-V block, advanced, induced by micturition, syncope in (Luria, et al.), 357
 - nodal tachycardia, paroxysmal, experimentally induced by, in dog (Moe, et al.), 87
 - node, wandering pacemaker occurring during speech, as result of paradoxical effect of atropine on (Deliyiannis), 683
- Axis map, further observations with normalized electrocardiogram and (Abildskov, et al.), 220

B

- Block, A-V, advanced, induced by micturition, syncope in (Luria, et al.), 357
- Blood flow, regional, cardiac output and, 721 (B. Rev.)
 - pressure, observed, influence of rate of cuff inflation and deflation on, by sphygmomanometry (King), 303
 - venous, coronary, physiologic basis for normally low oxygen content of (Badeer), 844 (Annot.)
 - unsaturated, or colloidal isotonic solutions at systemic pressures, function of normal and hypertrophied hearts during perfusion of main coronary artery with (Petropoulos), 514
- Body fluid disturbances, 288 (B. Rev.)
- Book reviews, 142, 287, 431, 576, 721, 848
- Boxer, German shepherd and, breeds, predominance of, among dogs with congenital subaortic stenosis (Patterson and Detweiler), 429 (Annot.)
- Brachial pulse, clinical study of first derivative of. Normal standards and abnormalities encountered in heart disease (Starr and Ogawa), 482
- Bradykinin rather than bradykinin (Zakopoulos), 847 (Letter to Editor)
- Bradykinin (Burch and DePasquale), 116
 - bradykinin rather than (Zakopoulos), 847
 - synthetic, systemic and coronary hemodynamic effects of (Rowe, et al.), 656
- Bretylum tosylate, pulmonary hypertensive effects of, in dog (McGaff and Leight), 240
- Bridges, myocardial, in coronary angiography (Bloor and Lowman), 195
- Buerger's disease, 576 (B. Rev.)

C

- Calcium chloride given to reverse quinidine toxicity (Luchi, et al.), 343
 - ions, significance of, in cardiac excitation and contraction (Nayler), 404
- Canine heart, electrical and anatomic study of Purkinje system of (Spach, et al.), 664
- Carbohydrates, fats and, as factors in atherosclerosis and diabetes in Yemenite Jews (Cohen), 291
- Carcinoid syndrome. Effective symptomatic treatment (Dubach and Gsell), 425 (Annot.)
- Cardiac compensation and decompensation, Russian research on (Simonson and Lieberman), 687
 - diagnosis, surgeon's guide to. Part I. Diagnostic approach, 431 (B. Rev.)

Cardiac—Cont'd

- excitation and contraction, significance of calcium ions in (Nayler), 404
- hypertrophy, idiopathic, simulating valvular heart disease (Shabetai and McGuire), 124
- involvement in lymphosarcoma and reticulum cell sarcoma (Madianos and Sokal), 322
- malformations and valvular disease, thermolysis method in diagnosis of (Grosse-Brockhoff), 282 (Annot.)
- output and regional blood flow, 721 (B. Rev.)
- symptoms, recurrent, after mitral valvuloplasty, evaluation of patients who develop (Harrison and Dexter), 583
- Cardiology, advances in, 848 (B. Rev.)
 - clinical, handbook of, 142 (B. Rev.)
- Cardiopatias, adquiridas, sondeo cardiaco en, 289 (B. Rev.)

- Catheterization, heart, left, transseptal, complications with (Adrouny, et al.), 327
- Cerebrovascular accidents as public health problem, 431 (B. Rev.)
- Chest ache (Morgan), 712 (Annot.)
 - lead, oblique, single, new, for rapid screening of electrocardiographic abnormalities in large populations, evaluation of (Lindeman, et al.), 24
 - surgery of, 289 (B. Rev.)
- Cholesterol, serum, evaluation of drugs used to reduce (Hoff and DeGraff), 132
- Circulation, extracorporeal, principles and techniques of; heart-lung bypass, 576 (B. Rev.)
 - pulmonary, human, 142 (B. Rev.)
- Climates, hot, man and his heart, 432 (B. Rev.)
- Clinical pathologic conference (Davis, et al.), 261 (Eisenstein, et al.), 826 (Krakower and Feldman), 555
- Closure, narrowing or, premature, of foramen ovale (Lev, et al.), 638
- Colloidal isotonic solutions, function of normal and hypertrophied hearts during perfusion of main coronary artery with unsaturated blood or, at systemic pressures (Petropoulos), 514
- Compensation and decompensation, cardiac, Russian research on (Simonson and Lieberman), 687
- Computers, application of, in cardiovascular disease, 577 (B. Rev.)
- Conduction, multiple pathways of, and reciprocal rhythm with interpolated ventricular premature systoles (Kistin), 162
- Conductor, volume, nonhomogeneous, "body surface" potentials produced by eccentric dipole in heart wall of (Bayley and Berry), 200
- Contraction, cardiac excitation and, significance of calcium ions in (Nayler), 404
 - premature, ventricular. Its place in diagnosis of ischemic heart disease (Benchimol, et al.), 334
- Cor triatriatum (Papaioannou, et al.), 12
- Coronary angiography, myocardial bridges in (Bloor and Lowman), 195

Coronary—Cont'd

- arteriovenous fistula with patent ductus arteriosus (Shaffer, et al.), 758
- artery, main, function of normal and hypertrophied hearts during perfusion of, with unsaturated blood or colloidal isotonic solutions at systemic pressures (Petrooulos), 514
- heart disease, normal hemoglobin level and (Birnbaum), 136 (Annot.)
- hemodynamic, systemic and, effects of synthetic bradykinin (Rowe, et al.), 656
- interarteriolar anastomosis (Laurie and Woods), 579
- occlusion, effects of histamine and potassium release agents on ventricular rhythms before and after (Hano and Harris), 368
- venous blood, physiologic basis for normally low oxygen content of (Badeer), 844 (Annot.)
- Cow's milk, proposal on possibility of improving, for purpose of lowering incidence of atherosclerosis, 141 (Letter to Editor)
- Cuff inflation and deflation, influence of rate of, on observed blood pressure by sphygmomanometry (King), 303

D

- Decompensation, cardiac compensation and, Russian research on (Simonson and Lieberman), 687
- Diabetes, fats and carbohydrates as factors in atherosclerosis and, in Yemenite Jews (Cohen), 291
- Diacardiac phonogram (Heintzen and Vietor), 59
- Diastolic murmurs, basal (Runco and Booth), 697
- Diet, Karel, improved, use of low-sodium formula as, with emphasis upon outpatient management of heart failure and lymphedema (Roberts), 32
- Digital vascular reactivity to l-norepinephrine, effect of aldosterone on electrolytes and on, in normotensive, and hypotensive subjects (Mendlowitz, et al.), 93
- Digitalis, hemodynamic effects of, in normal and diseased heart (Rodman and Pastor), 564
- neurotoxic effects of (Lyon and DeGraff), 839
- Dipole, eccentric, "body surface" potentials produced by, in heart wall of nonhomogeneous volume conductor (Bayley and Berry), 200
- Dipyridamole (Persantin), evaluation of (DeGraff and Lyon), 423
- Disease entity, new: leaflet redundancy of mitral valve (Deal, et al.), 441
- Disodium calcium versenate given to reverse quinine toxicity (Luchi, et al.), 345
- Dissociation, interference, and semantics. Plea for rational nomenclature (Phibbs), 283 (Annot.)
- Diving man, selective ischemia in (Elsner, et al.), 571 (Annot.)
- Dog, experimentally induced paroxysmal A-V nodal tachycardia in (Moe, et al.), 87
- pulmonary hypertensive effects of bretylium tosylate in (McGaff and Leight), 240
- Dogs, predominance of German shepherd and boxer breeds among, with congenital subaortic stenosis (Patterson and Detweiler), 429 (Annot.)
- Drugs used in treatment of heart conditions, appraisal and reappraisal of (DeGraff), 131
- to reduce serum cholesterol, evaluation of (Hoff and DeGraff), 132
- Dystrophy, myotonic, electrocardiographic abnormalities associated with (Payne and Greenfield), 436

E

- Editorials, 1, 145, 291, 433, 579, 723
- Electrical alternans of T wave without change in QRS complex, case showing (Kimura and Yoshida), 391
- with emphasis on recent observations made by means of single-cell electrical recording (Kleinfeld, et al.), 495
- recording, single-cell, electrical alternans with emphasis on recent observations made by means of (Kleinfeld, et al.), 495
- Electrically isolated areas, 6, model studies, using heart consisting of; "aimed" electrocardiography (Fischmann and Barber), 628
- Electrocardiogram in hypopituitarism. Reversibility of changes during treatment (Kosowicz and Roguska), 17
- normalized, and axis map, further observations with (Abildskov, et al.), 220
- twelve-lead, conventional, and clinical information, correlation with; simple corrected orthogonal lead system of electrocardiography (Tannenbaum, et al.), 349
- Electrocardiographic abnormalities associated with myotonic dystrophy (Payne and Greenfield), 436
- in large populations, evaluation of new single, oblique chest lead for rapid screening of (Lindeman, et al.), 24
- and vectorcardiographic findings in idiopathic hypertrophic subaortic stenosis (Estes, et al.), 155
- report, semantics and (Levine), 433
- studies, phonocardiographic and, in normal newborn infants (Craig and Harned), 180
- Electrocardiographs, direct-writing, on QRS amplitude and other errors produced by (Dower, et al.), 307
- Electrocardiography, "aimed." Model studies using heart consisting of 6 electrically isolated areas (Fischmann and Barber), 628
- practical, 576 (B. Rev.)
- simple corrected orthogonal lead system of: correlation with conventional twelve-lead electrocardiogram and clinical information (Tannenbaum, et al.), 349
- Electrode, platinum (Vogel, et al.), 841 (Annot.)
- Electrolytes, effect of aldosterone on, and on digital vascular reactivity to l-norepinephrine in normotensive, hypertensive, and hypotensive subjects (Mendlowitz, et al.), 93
- water and, of muscle, effect of long-term treatment with hydrochlorothiazide on, in hypertensive subjects (Villamil, et al.), 294
- Embolism, lung, experimental, "severe," with and without postembolic collapse, effect of isoproterenol in (Halmagyi, et al.), 208
- Epidemiology of cardiovascular diseases. Methodology. Hypertension and arteriosclerosis, 287 (B. Rev.)
- Excitation and contraction, cardiac, significance of calcium ions in (Nayler), 404

F

- Failure, heart, in hypertensive patients (Mickerson), 267
- left, subtle roentgenographic signs of (Logue, et al.), 464
- Fats and carbohydrates as factors in atherosclerosis and diabetes in Yemenite Jews (Cohen), 291
- Fibrillation, atrial, ventricular parasystole in (Berman and Simonson), 285 (Annot.)
- Fistula, arteriovenous, of kidney (Mangiardi, et al.), 549

Fistula—Cont'd

coronary arteriovenous, with patent ductus arteriosus (Shaffer, et al.), 758

Flow, aortic pressure and, effects of respiration on (Shabetai, et al.), 525

Fluid, body, disturbances, 288 (B. Rev.)

treatment of refractory retention of, with oral L-arginine monohydrochloride and meraluride (Mizgala, et al.), 5

Foramen ovale, premature narrowing or closure of (Lev, et al.), 638

Functional recovery of men surviving first myocardial infarction, assessment of (Dimond), 832

G

Gastric hemodynamics (Jacobson), 843 (Annot.)

German shepherd and boxer breeds, predominance of, among dogs with congenital subaortic stenosis (Patterson and Detweiler), 429 (Annot.)

Glycogen storage disease of myocardium (Ehlers and Engle), 145

H

Health, tobacco and, 287 (B. Rev.)

Heart, angiosarcoma of (McNalley, et al.), 244
canine, electrical and anatomic study of Purkinje system of (Spach, et al.), 664

catheterization, left, transeptal, complications with (Adrouny, et al.), 327

conditions, appraisal and reappraisal of drugs used in treatment of (DeGraff), 131

consisting of 6 electrically isolated areas, model studies, using; "aimed" electrocardiography (Fischmann and Barber), 628

disease, arteriosclerotic, apexcardiogram in normal older subjects and in patients with. Effect of exercise on "a" wave (Benchimol and Dimond), 789

coronary, normal hemoglobin level and (Birnbbaum), 136 (Annot.)

ischemic, arterial hypertension and. Preventive aspects, 143 (B. Rev.)

its place in diagnosis of; ventricular premature contraction (Benchimol, et al.), 334

narcotic analgesics in (Modell), 709

normal standards and abnormalities encountered in; clinical study of first derivative of brachial pulse (Starr and Ogawa), 482

valvular, idiopathic cardiac hypertrophy simulating (Shabetai and McGuire), 124

failure and lymphedema, use of low-sodium formula as improved Karell diet, with emphasis upon outpatient management of (Roberts), 32

in hypertensive patients (Mickerson), 267

left, subtle roentgenographic signs of (Logue, et al.), 464

his, hot climates, man and, 432 (B. Rev.)

human, tissue, immunologic relationship of group A streptococcal strains and. Possible significance for pathogenesis of rheumatic fever (Kaplan), 426 (Annot.)

normal and diseased, hemodynamic effects of digitalis in (Rodman and Pastor), 564

rate, slow, artificial pacemaker for treatment of Adams-Stokes syndrome and (Elmqvist, et al.), 731

sound, second, origin of (Coleman), 237

third, genesis of (Nixon), 712 (Annot.)

Heart—Cont'd

vector, characterizing variations of, in terms of normalized electrocardiograms. Appendix I (Abildskov, et al.), 226

vertical component of (Nelson and Matsuoka), 774

wall of nonhomogeneous volume conductor, "body surface" potentials produced by eccentric dipole in (Bayley and Berry), 200

Heart-lung bypass. Principles and techniques of extracorporeal circulation, 576 (B. Rev.)

Hearts, normal and hypertrophied, function of, during perfusion of main coronary artery with unsaturated blood or colloidal isotonic solutions at systemic pressures (Petrooulos), 514

Hemodynamic, coronary, systemic and, effects of synthetic bradykinin (Rowe, et al.), 656
effects, differential, of isoproterenol on mitral stenosis and left ventricular diseases (Cox, et al.), 802

of digitalis in normal and diseased heart (Rodman and Pastor), 564

of isoproterenol on pulmonary hypertension in man (Lee, et al.), 361

significance of radiologic changes in acquired aortic stenosis (Rockoff and Austen), 458

Hemodynamics, gastric (Jacobson), 843 (Annot.)

Hemoglobin level, normal, and coronary heart disease (Birnbbaum), 136 (Annot.)

Heparin, long-term, continuous, and oral anticoagulant therapy, comparison of, in patients with severe angina pectoris (Hughes, et al.), 615

Histamine and potassium release agents, effects of, on ventricular rhythms before and after coronary occlusion (Hano and Harris), 368

Histologic structure of pulmonary trunk in patients with "primary" pulmonary hypertension (Roberts), 230

Hot climates, man and his heart, 432 (B. Rev.)

Hydrochlorothiazide, effect of long-term treatment with, on water and electrolytes of muscle in hypertensive subjects (Villamil, et al.), 294

Hypertension and arteriosclerosis. Epidemiology of cardiovascular diseases. Methodology, 287 (B. Rev.)

arterial, and ischemic heart disease. Preventive aspects, 143 (B. Rev.)

methyldopa in (Dollery), 139 (Annot.)

pulmonary, hemodynamic effects of isoproterenol on, in man (Lee, et al.), 361

"primary," histologic structure of pulmonary trunk in patients with (Roberts), 230

Hypertensive, normotensive, and hypotensive subjects, effect of aldosterone on electrolytes and on digital vascular reactivity to l-norepinephrine in (Mendlowitz, et al.) 93
patients, heart failure in (Mickerson), 267

pulmonary, effects of bretylium tosylate in dog (McGaff and Leight), 240

subjects, effect of long-term treatment with hydrochlorothiazide on water and electrolytes of muscle in (Villamil, et al.), 294

Hypertrophied, normal and, hearts, function of, during perfusion of main coronary artery with unsaturated blood or colloidal isotonic solutions at systemic pressures (Petrooulos), 514

- Hypertrophy, cardiac, idiopathic, simulating valvular heart disease (Shabetai and McGuire), 124
- Hypopituitarism, electrocardiogram in. Reversibility of changes during treatment (Kosowicz and Roguska), 17
- Hypotension and shock syndrome complicating staphylococcal pneumonia (Kellaway), 507 (Annot.)
- Hypotensive, normotensive, hypertensive, and, subjects, effect of aldosterone on electrolytes and on digital vascular reactivity to l-norepinephrine in (Mendlowitz, et al), 93

I

- Illness, fatal, of Napoleon the Great (Cawadias), 277 (Annot.)
- Infants, newborn, normal, phonocardiographic and electrocardiographic studies in (Craig and Harned), 180
- Infarction, myocardial, acute, anticoagulant therapy in (Jacobs), 716 (Annot.)
- study of, at Seraphimer Hospital during 1950-1959 (Wahlberg), 749
- first, assessment of functional recovery of men surviving (Dimond), 832
- Inflation and deflation, cuff, influence of rate of, on observed blood pressure by sphygmomanometry (King), 303
